

Data Science capabilities for Field Epidemiologists to better prevent, detect, and respond the global pandemic

We are honor to have a meeting with US CDC Head quarter our big support to ASEAN Plus Foundation to continue support in next year the topics are about

1. Strengthen ASEAN+3 platform for cross country surveillance system; Enhancing regional join field epidemiology training workforce capability to prevent, detect and response to transboundary emerging infectious diseases.

DHS/ DGHP Thailand

2. Build a robust network of FETP mentors and supervisors in the region, thereby increasing capacity to detect, investigate, and report COVID-19 transmission. DGHP Regional Project

Thanks for having us and supporting.
