ASEAN Plus Foundation: Objectives

- To help strengthening Field Epidemiology Training Network in ASEAN countries and beyond.
- To work with other partners and organizations for the benefit of public health in the region

ASEAN Plus Foundation: What we do

- Mobilize fund and technical support for ASEAN+3 FETN activities
- Support and facilitate cross-countries studies / trainings in disease surveillance, prevention and control in the region
- Advocate for field epidemiology capacity building
- Mobilize contribution from development partners to achieve the purpose

Thank you

"We are ambitious to make the Foundation an active mechanism to assist and support the ASEAN Plus Three Field Epidemiology Training Network (ASEAN+3 FETN) to achieve its ambitious goal of regional capacities in epidemiology and mutual security in health."
